

**Program to print the following series by using  
'do-while loop'**

**1      4      9      16      25**

```
#include<stdio.h>
```

```
#include<conio.h>
```

```
main()
```

```
{
```

```
    int i;
```

```
    i=1;
```

```
    do
```

```
    {
```

```
        printf("%d",i*i);
```

```
        i++;
```

```
    }while(i<=5);
```

```
    getch();
```

```
}
```
