

Write a program that will use library functions like sin(), cos(), tan() etc.

```
#include<stdio.h>
#include<math.h>
#include<conio.h>
main()
{
    int a,b,c,s;
    printf("enter the value");
    scanf("%d",&s);
    a=sin(s);
    b=cos(s);
    c=tan(s);
    printf("%d%d%d",a,b,c);
    getch();
}
```
