

Program of Ellipse

```
#include<graphics.h>
#include<iostream.h>
#include<conio.h>
#include<dos.h>
void main()
{
    intgd=DETECT,gm;
    initgraph(&gd,&gm,"c:/turboc3/BGI");
    outtextxy(150,10,"This is program to draw an ellipse   www.bcanotes.com");
    ellipse(320,200,0,360,50,20);
    setfillstyle(1,RED);
    floodfill(350,200,WHITE);
    getch();
    closegraph();
}
```
