

/*A program in Java to take two numbers as input from command line interface and display their sum*/

```
class Sum
{
    public void add (int a,int b)
    {
        return (a+b);
    }
}
class SumMain
{
    public static void main (String arg[])
    {
        Sum obj1 = new Sum();
        int x =0 ,y = 0 ;
        String s1=arg[0];
        String s2=arg[1];
        x = Integer.parseInt (s1);
        y = Integer.parseInt (s2);
        System.out.println (obj1.add(x,y));
    }
}
```

```
Command Prompt
E:\>javac SumMain.java
E:\>java SumMain 1 2
3
E:\>_
```
