

Program to create a form named “welcome” which asks the user for the name, and address then says “Hello Mr./Miss: <name>” your address is: <address>. The user is then given a choice (with check buttons) of changing font type and font size of <name> and <address> as per the option selected. This form should stop by clicking on a Command Button named Exit.

FORM

The screenshot shows a Windows form titled "Form1" with a blue title bar and standard window controls. The form has a grey background with a dotted grid. It contains the following elements:

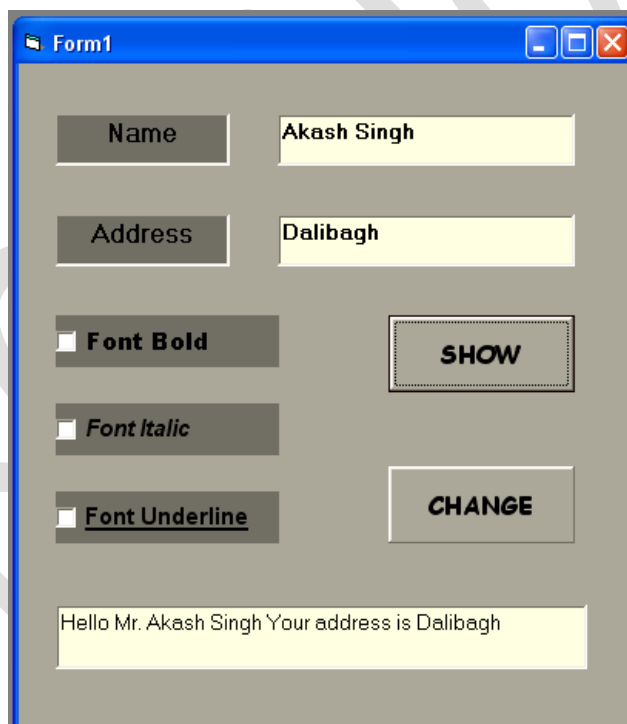

- A label "Name" next to a yellow text input field.
- A label "Address" next to a yellow text input field.
- Three checkboxes on the left: "Font Bold", "Font Italic", and "Font Underline", each with an unchecked box.
- A "SHOW" button to the right of the checkboxes.
- A "CHANGE" button below the "SHOW" button.
- A large, empty yellow text box at the bottom of the form.

CODING

```
Private Sub Command1_Click()  
Text3.Text = "Hello Mr." + " " + Text1.Text + " " + "Your
```

```
address is" + " " + Text2.Text  
End Sub
```

```
Private Sub Command2_Click()  
If Check1.Value Then  
Text3.FontBold = True  
End If  
If Check2.Value Then  
Text3.FontItalic = True  
End If  
If Check3.Value Then  
Text3.FontUnderline = True  
End If  
  
End Sub
```

The screenshot shows a Windows form titled "Form1" with a blue title bar. The form has a light gray background and contains the following elements:

- A "Name" label and a text box containing "Akash Singh".
