

Program to read the file from hard disk.

## FORM

The screenshot shows a Visual Basic form titled "Form1" with a blue title bar and standard window controls. The form has a grey dotted background and contains the following elements:

- A drive dropdown menu showing "c:".
- A label "FILE NAME" next to an empty text input field.
- A file explorer pane on the left showing a tree view with folders: C:\, Documents and Settings, PC, Desktop, and VB PROJECT (which is selected).
- A central button labeled "BROWSE AND OPEN".
- A file list pane on the right showing a list of files: DATE\_TIME.frm, DATE\_TIME.vbp, DATE\_TIME.vbw, fcolor.frm, fcolor.vbp, fcolor.vbw, font\_style.frm, font\_style.vbp, font\_style.vbw, menudesign.frm, and menudesign.vbp.
- A large empty text area at the bottom of the form.

## CODING

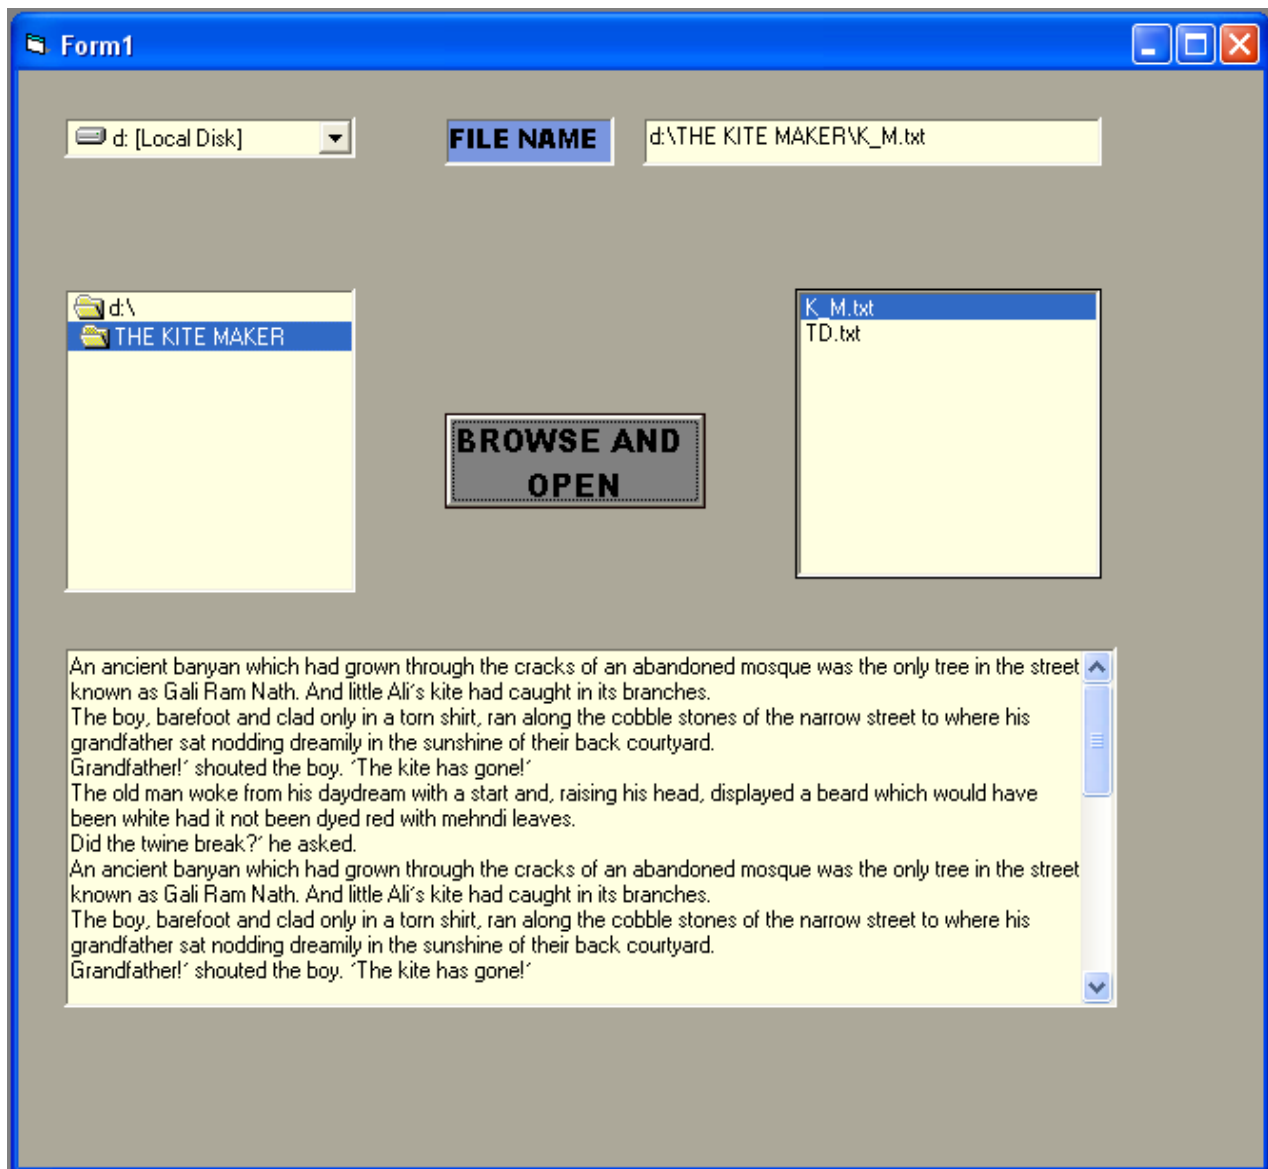

```
Private Sub Command1_Click()  
Open Text1.Text For Input As #1  
Text2.Text = Input(LOF(1), #1)  
Close #1  
End Sub
```

```
Private Sub Dir1_Change()  
File1.Path = Dir1.Path  
End Sub
```

```
Private Sub Drive1_Change()  
Dir1.Path = Drive1.Drive  
End Sub
```

```
Private Sub File1_Click()  
Text1.Text = File1.Path & "\" & File1.FileName  
End Sub
```
