

W.A.P. To Make a Tic-Tac Game

```
Dim game As Boolean

Private Sub Command1_Click(Index As Integer)
If game = True Then
Command1.Item (Index).Caption = "x"
Command1.Item (Index).Enabled = False
Else
Command1.Item (Index).Caption = "o"
Command1.Item (Index).Enabled = False
End If
Game = Not game

End Sub
```

In this Program, we create a control array with the help of command button. The whole program is about a tic-tac game. Only one coding is shared by the all the control array.
