

**/\* A program in Java to count no. of object created of a class\*/**

```
class Demo
{
    private static int count = 0;
    public Demo()
    {
        count++;
        System.out.println ("object "+count+" created");
    }
}

class DemoMain
{
    public static void main (String args[])
    {
        Demo obj1 = new Demo();
        Demo obj2 = new Demo();
        Demo obj3 = new Demo();
    }
}
```

```
Command Prompt
E:\>javac DemoMain.java
E:\>java DemoMain
object 1 created
object 2 created
object 3 created
```
