

Nesting of if...else statements

```
class IfElseNesting
{
    public static void main(String args[])
    {
        int a=325,b=712,c=478;
        System.out.print("Largest value is:");
        if(a>b)
        {
            if(a>c)
            {
                System.out.println(a);
            }
            else
            {
                System.out.println(c)
            }
        }
        else
        {
            if(c>b)
            {
                System.out.println(c);
            }
            else
            {
```

```
        System.out.println(b);  
    }  
    }  
}  
}
```

The screenshot shows a Windows command prompt window titled "C:\Windows\system32\cmd.exe". The prompt is at "E:\Java>". The user enters "javac IfElseNesting.java" and presses enter. The prompt returns to "E:\Java>". The user then enters "java IfElseNesting" and presses enter. The output is "largest value is:712". The prompt returns to "E:\Java>".

```
C:\Windows\system32\cmd.exe  
E:\Java>javac IfElseNesting.java  
E:\Java>java IfElseNesting  
largest value is:712  
E:\Java>
```
