

The if...else statement

```
class IfElseTest
{
    public static void main(String args[])
    {
        int number[]={50,65,56,71,81};
        int even=0,odd=0;
        for (int i=0;i<number.length;i++)
        {
            If ((number[i] % 2) == 0) //Decide even or odd
            {
                Even+=1; //counting EVEN numbers
            }
            else
            {
                Odd+=1; //counting ODD numbers
            }
        }
        System.out.println("Even Numbers:"+even +"Odd Numbers:"+odd);
    }
}
```
